**BACKGROUND:**

The 15-member Teachers and Leaders Council (TLC) was established through the passage of Assembly Bill 222 in the 2011 session, and charged with creating a statewide performance system for teachers and school administrators. The State Board of Education is then required in response to the work of the TLC to adopt regulations, which must be used to guide the development and adoption of aligned school district policies. A detailed set of support materials was made to available to the public in December to support understanding of this board item. The hearing notice and enclosures, as well as additional materials regarding the 15-month process undertaken by the multi-disciplinary TLC is available at: [http://www.doe.nv.gov/Teacher\\_Leaders\\_Council/](http://www.doe.nv.gov/Teacher_Leaders_Council/)

A supplementary document has also been prepared for the benefit of the State Board, which includes two individuals who were members during the public workshop held December 14, 2012 and a majority of new members who were not on the Board at that time. This document is a copy of the regulations that were posted in December with information added to note the public comments received during the December 2012 workshop.
