

NEVADA
State High School

April 28, 2016

Dr. Steve Canavero, Superintendent
Nevada Department of Education
700 East Fifth Street
Carson City, Nevada 89701

Dear Dr. Canavero:

This letter is to respectfully request your review and the Nevada State Board of Education's (NSBE) approval of the attached updated list of Nevada State High School's (NSHS) dual credit courses under NRS 389.160 and approved by the school's governing body in public meeting on April 27, 2016. Since opening in 2004, Nevada State High School administration reviews and updates practices and policies to ensure the school is maintaining compliance with state policy changes and is current on the best practices that impact the school and its students. To summarize the current request, Nevada State High school is requesting that all 100-200 level courses that are 3 or more college credits count as one high school credit, and remedial or courses that are less than 100 level will count as .5 high school credit. This allows the school to remain current and consistent with other approved dual credit practices implemented by schools and districts throughout the State.

Due to Nevada System of Higher Education's continual process of aligning to common course sequencing, the school is requesting that the current list of courses automatically adopt the new course naming systems as the colleges work toward this alignment. NSHS is requesting NSBE consideration for approval at the upcoming June 16, 2016 NSBE meeting to allow the school to work with students on updating their individual academic plans and school materials for the upcoming school year.

Should you have any questions, then please contact me jhawk@earlycollegenv.com or 702-332-2593.

Best regards,

 Dr. John Hawk, Chief Operations Officer
