**SMALL BUSINESS IMPACT STATEMENT
PURSUANT TO NRS 233B.0608**

Date: August 4, 2015

Re: Workshop to Adopt Regulations Regarding Special Education pursuant to AB341, AB328, and SB13 and Proposed Amendments to NAC 388 at 9:00 a.m.

I, Marva Cleven, Director of Special Education for the Nevada Department of Education, do hereby certify that, to the best of my knowledge or belief:

1. The proposed permanent regulations to be added the NAC Chapter 388 concerning the regulations for Special Instructional Services and Programs are not likely to (a) impose a direct or significant economic burden upon a small business, or (b) directly restrict the formation, operation or expansion of a small business. The proposed regulations make necessary changes to special education regulations per SB13, AB341, and AB328.
2. A concerted effort was made to determine any economic burden.
3. All relevant materials were reviewed and the Department considered its history with implementing similar regulations; the proposed changes are within the scope of the Department's budget and legislatively approved activities and present no new significant cost of enforcement.
4. Comment has not been solicited from small businesses, and no summary of their response is provided, because small businesses are not impacted by this regulation and thus no burden or economic impact can be assessed.

I hereby further certify that, to the best of my knowledge or belief, a concerted effort was made to determine the impact of the regulation on small businesses and that the information contained in this statement was prepared properly and is accurate.

Respectfully submitted,

↪ A pupil with a disability, including a pupil in a public or private institution or other care facility, must be educated with pupils who are not disabled to the maximum extent appropriate and may not be removed from an age-appropriate regular classroom solely because the pupil needs modification to the general curriculum.

2. A public agency shall provide a continuum of alternative placements to meet the needs of any pupil with a disability for special education and related services necessary to implement the individualized educational program for each pupil with a disability. This continuum must include, as appropriate:

vocational educational program. The committee may prepare such a statement before the pupil is 14 years of age if the committee determines that the statement is appropriate for the pupil. The statement required by this paragraph must be updated annually.

communication needs, opportunities for direct communications with other pupils and professional personnel in the pupil's language and communication mode, academic level and full range of needs, including, without limitation, opportunities for direct instruction in the pupil's language and communication mode; and

↪ A party may not have a hearing until the party, or an attorney representing the party, files a due process complaint that meets the requirements of this subsection.

(d) A description of the other factors that are relevant to the proposed or refused action of the public agency.

↪ A response required pursuant to this subsection does not preclude the public agency from asserting that the due process complaint is insufficient.

9. Unless a response is sent pursuant to subsection 8, the party who receives a due process complaint shall, within 10 days after receiving the complaint ~~[, file and]~~ send to the other party a response that specifically addresses the issues raised in the complaint and file a copy of the response with the hearing officer.

14. If, in an appeal taken pursuant to NAC 388.315, the review officer agrees with the parents of the pupil that a particular change in the pupil's current placement is appropriate, the change in placement must be treated as an agreement between the public agency and the parents for the purposes of this subsection and subsection 11.

15. A parent or a public agency shall file a due process complaint pursuant to this section within 2 years after the date on which the parent or public agency knew or should have known about the alleged action that forms the basis of the due process complaint. The time limit for filing a due process complaint does not apply to a parent if:

4. Based in part on the results of the targeted scientific, research-based intervention, the public agency shall determine whether the pupil is suspected of having a disability and should be evaluated in accordance with NAC 388.330 to 388.440, inclusive.

5. During the period in which targeted scientific, research-based intervention is being provided, a parent of the pupil may ask for an initial evaluation of the pupil if the parent suspects that the pupil has a disability and may qualify for ~~[special services and programs of instruction]~~ special education and related services pursuant to NAC 388.330 to 388.440, inclusive. If the public agency suspects the pupil has a disability, the public agency shall not refuse to conduct the initial evaluation or delay the initial evaluation until the targeted scientific, research-based intervention is completed and shall promptly request parental consent to evaluate the pupil. 1. Except as otherwise provided by subsections 2 and 3, when a public agency determines that good cause exists to evaluate a pupil pursuant to NAC 388.330 to 388.440, inclusive, it shall conduct the initial evaluation within:

(a) Forty-five school days after the parent [~~or pupil if the pupil is an adult,~~] provides informed written consent;

(b) Forty-five school days after the *receipt of* [~~date of~~] the decision of a hearing officer pursuant to NAC 388.310 ordering the [~~parent to allow, or adult pupil to submit to an~~] evaluation, *or the time period set forth in the hearing decision, whichever is shorter*; or

(c) At any other time agreed upon in writing by the parent [~~or adult pupil~~] and the public agency.

2. Upon the request of a public agency, the Superintendent may extend the deadline for conducting initial evaluations for not more than 15 school days.

3. The deadline for conducting an initial evaluation does not apply to a public agency if:

(a) A pupil enrolls in a school served by the public agency after the 45 school day timeframe has begun and before a determination by the pupil's previous public agency as to whether the pupil is a pupil with a disability, but only if the succeeding public agency is making sufficient progress to ensure a prompt completion of the evaluation and the parent and subsequent public agency agree to a specific time when the evaluation will be completed; or

(b) The parent of the pupil repeatedly fails or refuses to deliver the pupil for the evaluation.

4. For the purposes of this section, "school day" means any day in which pupils enrolled in a school are scheduled to be engaged in registration, classes, other instructional activities or testing during the required minimum daily period for each grade or department.

NAC 388.340 Determination of eligibility of pupil and appropriate individualized educational program. (NRS 385.080, 388.470, 388.520)

1. In conducting an evaluation pursuant to NAC 388.330 to 388.440, inclusive, the public agency shall comply with the provisions of 34 C.F.R. §§ 300.304 [~~and~~] to 300.306, *inclusive*, and shall use a variety of assessment tools and strategies to gather relevant functional, developmental and academic information concerning the pupil, including, without limitation, information provided by the parent that may assist in determining:

(a) Whether the pupil is a pupil with a disability; and

(b) The educational needs of the pupil and the content of the pupil's individualized educational program, including, without limitation, information related to enabling the [child] pupil to be involved in and progress in the general education curriculum or, for preschool children, to participate in appropriate activities.

2. No single measure or assessment may be used as the sole or controlling criterion for determining whether a pupil is a pupil with a disability pursuant to NAC 388.330 to 388.440, inclusive, or for determining an appropriate individualized educational program for the pupil.

3. The public agency shall use technically sound instruments that assess the relative contribution of cognitive, behavioral, physical or developmental factors.

4. The public agency shall ensure that:

(a) Assessments and other evaluation materials used to assess a pupil pursuant to this section are:

(1) Selected and administered so as not to be discriminatory on a racial or cultural basis;

(2) Provided and administered in the language or other mode of communication normally used by the child in the home or learning environment, such as sign language, Braille, or oral communication, and in the form most likely to yield accurate information on what the pupil knows and can do academically, developmentally and functionally, unless it is clearly not feasible to so provide or administer;

(3) Used for the purposes for which the assessments or measures are valid and reliable;

(4) Administered by trained and knowledgeable personnel; and

(5) Administered in accordance with any instructions provided by the producer of such assessments;

(b) The pupil is assessed in all areas of suspected disability;

(c) Assessments and other evaluation materials include those tailored to assess specific areas of educational need and not merely those that are designed to provide a single general intelligence quotient;

(d) Assessments are selected and administered so as best to ensure that if an assessment is administered to a pupil with impaired sensory, manual, or speaking skills, the assessment results accurately reflect the pupil's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the pupil's impaired sensory, manual, or speaking skills, unless those skills are the factors that the test purports to measure;

~~(e)~~ (e) Assessment tools and strategies that provide relevant information which directly assists persons in determining the educational needs of the pupil are provided; and

~~(f)~~ (f) Assessments of pupils with disabilities who transfer from one ~~[school district]~~ public agency to another ~~[school district]~~ public agency in the same academic school year are coordinated with such pupil's prior and subsequent schools, as necessary and as expeditiously as possible, consistent with paragraph (a) of subsection 2 of NAC 388.337, to ensure prompt completion of full evaluations.

5. When interpreting evaluation data to determine the eligibility of a pupil for ~~[special services and programs of instruction]~~ special education and related services pursuant to NAC 388.325 to 388.450, inclusive, and to determine the educational needs of the pupil, the public agency shall:

(a) Draw upon information from a variety of sources, including, without limitation, aptitude and achievement tests, input from the parent of the pupil, recommendations from the teacher of the pupil and any other information about the physical condition, social or cultural background of the pupil and the adaptive behavior of the pupil; and

(b) Ensure that the information obtained from sources pursuant to paragraph (a) is properly documented and carefully considered.

6. In making a determination of the eligibility of the pupil for ~~[the special services and programs of instruction]~~ special education and related services pursuant to NAC 388.330 to 388.440, inclusive, a pupil may not be determined to be a pupil with a disability if the controlling factor for such a determination is the pupil's:

(a) Lack of appropriate instruction in reading, including, without limitation, the essential components of reading instruction;

(b) Lack of appropriate instruction in math; or

(c) Limited proficiency in English.

↪ As used in this subsection, “essential components of reading instruction” has the meaning ascribed to it in the Elementary and Secondary Education Act, 20 U.S.C. § 6368(3).

7. The screening, *including an early literacy screening assessment*, of a pupil by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation must not be considered [as] an evaluation of the pupil.

8. Except as otherwise provided in this subsection, the public agency must evaluate a pupil with a disability pursuant to NAC 388.330 to 388.440, inclusive, before determining that the pupil is no longer a pupil with a disability. An evaluation is not required to terminate a pupil’s eligibility if the pupil graduates from secondary school with a standard high school diploma or the pupil is no longer under the age of 22 years. The public agency shall provide such a pupil with a written summary of the pupil’s academic achievement and functional performance, including, without limitation, recommendations to assist the pupil in meeting postsecondary goals.

9. Any decision of the eligibility team concerning the eligibility of a pupil for [~~special services and programs of instruction~~] *special education and related services* pursuant to NAC 388.330 to 388.440, inclusive, must be justified in a written report, to be kept in the records of the pupil maintained by the public agency. The public agency shall provide a copy of the report and any other documentation relating to the determination of the pupil’s eligibility pursuant to this section to the parents of the pupil at no cost.

10. If the members of the eligibility team disagree about the determination of eligibility, a minority report must be prepared if required by paragraph (j) of subsection 8 of NAC 388.420 and may be prepared in any other case.

If a score other than the total score of the pupil on such a test is used to assess the pupil’s cognitive abilities, the procedure must be justified, on the basis of professionally recognized criteria, in the records of the pupil maintained by the public agency.

2. Except as otherwise provided in this subsection, any interpretation of an assessment of cognitive abilities must be made by a licensed school psychologist or licensed or certified psychologist. In the case of a pupil under the age of 6 years, any such interpretation may be made by a licensed school psychologist or a licensed or certified psychologist with documented training in the assessment of preschool pupils with disabilities.
