RE: Q4 FY14 CSR Variance Report

Introduction

Pursuant to Nevada Revised Statutes (NRS) 388.700(4), the State Board of Education is required to submit a quarterly Class-Size Reduction (CSR) report to the Interim Finance Committee (IFC) on each variance requested by a school district or charter school during the preceding quarter. Per the Legislative Counsel Bureau, fourth quarter reports from fiscal year 2014 are not on record; therefore we are submitting them for approval. Previously the requests were submitted and approved only once per year, under AB 2, these requests must be submitted and approved each quarter. These requests are now at the school level instead of the district level. Previously the calculation of the pupil teacher ratios was performed by grade level across the district as whole. Under the provisions of AB 2, these calculations are performed by grade level at each school. The report must include an identification of the elementary school for which a variance was granted, as well as the specific justification for the variance.

Kindergarten

Under the provisions of Senate Bill 522 of the 77th Legislative Session, districts must maintain average pupil-teacher ratios of 21:1 at the school level for kindergarten classes. Individual schools may apply to the district superintendent for a variance of up to 25:1 at the school level. There are no variances allowed over 25:1.

Scope of Report

Attached is the report of variances for the 4th quarter of Fiscal Year (FY) 2014. The report provides a summary of variance requests by school district and charter school and specific variance information by school. For each variance request, the following information is presented for each school. Per SB522, districts are allowed to increase class size ratios by not more than two pupils per grade:

- There are two types of CSR programs funded in Nevada:
 1. Regular CSR: Pupil-teacher ratio; Kindergarten – 16:1; Grades 1 and 2 – 18:1; and Grade 3 – 21:1. This program is currently funded through Sections 11 of S.B. 522. NRS 388.700 regular program ratios are 16:1 in grades 1 and 2, and 18:1 in grade 3.
 2. Alternative CSR: School districts which are located in a county whose population is less than 100,000 may select the Alternative CSR program which provides flexibility in implementing pupil-teacher ratios in grades 1 through 6 for - Kindergarten – 16:1; Grades 1 through 3 – 22:1 and Grades 4 through 6 – 25:1. This program is authorized through NRS 388.720.

- Demographic Data: Low Income (percent of student population eligible for free and reduced priced lunch) and the percent of the student population who are English Learners (EL). Figures 10% or less are not reported under the suppression rule for student protection.

- Student counts over and under the approved ratios, by grade.

Executive Summary

There were 789 classroom variances in 290 schools in the fourth quarter of FY14. This is a 1% decrease in the number of variances, from the 3rd quarter and a 2% decrease in the number of schools with variances.

CONCLUDING REMARKS

The Department of Education is committed to working with the State Board, districts, and charter schools to decrease the number of variance requests, particularly in underperforming schools. I hope this information is useful to you; if you have any questions, please do not hesitate to contact me via email at mhanke@doe.nv.gov.
