RE: FY 2018 Q2 CSR Variance Report

Introduction

Pursuant to Nevada Revised Statutes (NRS) 388.700(4), the State Board of Education is required to submit a quarterly Class-Size Reduction (CSR) report to the Interim Finance Committee (IFC) on each variance requested by a school district during the preceding quarter; charter schools are exempt. The report must include an identification of the elementary school for which a variance was granted, as well as the specific justification for the variance.

- There are two types of CSR programs funded in Nevada:
 1. Regular CSR: Pupil-teacher ratio; Kindergarten – 16:1; Grades 1 and 2 – 17:1; and Grade 3 – 20:1. This program is currently funded through Sections 15 and 16 of S.B. 544.
 2. Alternative CSR: School districts which are located in a county whose population is less than 100,000 may select the Alternative CSR program which provides flexibility in implementing pupil-teacher ratios in grades 1 through 6 for - Kindergarten – 16:1; Grades 1 through 3 – 22:1 and Grades 4 through 6 (grade 5 and 6 as applicable, when included in an elementary school) – 25:1. This program is authorized through NRS 388.720

In fiscal year 2018, Section 12 of S.B. 544 provides that funding for CSR shall pay the salaries and benefits of not less than 1,944 teachers to meet required ratios. CSR provides sufficient funds for school districts to meet required ratios at a district level. Remaining funds are allocated to the lowest performing schools with variances.

Executive Summary

For the second quarter of the 2018 fiscal year (FY), there were no material changes to grades kindergarten through six (as applicable). There were 137,047.44 students, 1,880.17 CSR funded teachers and 4,896.71 non-CSR funded teachers for a total of 6,776.88 teachers. The total aggregate statewide class size ratio in grades K-6 is 20.22, compared to 20.25 in the first quarter. The district level class size ratios for the second quarter are provided in the report below. All but four districts exceed the prescribed ratios in at least one grade: Esmeralda, Eureka, Lincoln, and Storey. The grade with the most variances is kindergarten, with 13 of the 17 districts exceeding the prescribed ratio of 16 to 1 students per teacher. The grade with the second most variances is second grade, with 8 out of 17 districts exceeding the prescribed ratio (17 to 1 for the regular plan, and 22 to 1 for those on the alternative plan). Statewide, kindergarten class size ratios increased by 0.43 students per teacher. Grades first through third all saw equally small decreases in class size ratios. Fifth grade experienced the largest increase, going from 20.63 to 24.07 students per teacher.

Scope of Report

Attached is the report of variances for the second quarter of Fiscal Year (FY) 2018. The report provides a summary of variance requests by school district and specific variance information by school. For each variance request, the following information is presented:

- Respective class size ratios by school and grade
- Star rating pursuant to the Nevada School Performance Framework
- Demographic data such as percent of student population that is low income and percent who are English Language Learners (EL)

Statewide Summary of Variances & Justifications

Variance requests are categorized into four standard potential justifications: Funding limitations, difficulty hiring teachers, facility limitations, and other. Any or all of these justifications are accepted. Funding limitations was the most common variance justification in Q2 FY 18, which was a factor in 97.0% of variances granted to district. Difficulty hiring teachers was the second most common justification in district schools at 94.2%, followed by facility limitations at 80.5%. 91.2% cited both difficulty hiring and funding limitations as the reason for a variance and 78.7% of district school variance justifications cited all three rationales.

The districts were broken into their grouping type, Large, Centralized, Rural, Small, and Very Small, according to the DSA equity allocation model definitions and were analyzed for commonalities. The large districts, Clark and Washoe, cited a lack of qualified teachers, limited facilities, and inadequate funds as contributors to the variances.

The most common justifications provided by rural districts like Elko, Humboldt, Lander, Nye, and White Pine, was a lack of funding to provide incentives to hire qualified teachers which leads to difficulty in recruiting qualified teachers. In centralized districts like Carson, Churchill, Douglas, and Lyon, funding was the most common factor. In small districts like Lincoln, Mineral, Pershing, and Storey, the most common justification is also funding. Neither district in the very small category, Esmeralda and Eureka, requested variances and so no justifications were provided.

District Grouping Variance Justification

District Grouping	District	Facility	Hiring	Funding	Other
<i>Large</i>					
	Clark	X	X	X	-
	Washoe	X	X	X	-
<i>Centralized</i>					
	Carson	X	X	X	-
	Churchill	-	X	X	-
	Douglas	-	-	X	-
	Lyon	X	X	X	-
<i>Rural</i>					
	Elko	X	X	X	-
	Humboldt	-	-	X	-
	Lander	X	X	X	-
	Nye	X	X	X	-
	White Pine	-	X	X	-
<i>Small</i>					
	Lincoln	-	-	-	-
	Mineral	-	X	-	-
	Pershing	-	-	X	-
	Storey	-	-	-	-
<i>Very Small</i>					
	Esmeralda	-	-	-	-
	Eureka	-	-	-	-

District Level Analysis of Variances

Second quarter variance justifications provided by the districts remained the same as first quarter. Inadequate funding and difficulty hiring are the two biggest obstacles cited by districts as justifications for variance justifications. Individual reports are available upon request.

School Level Analysis of Variances

The attached variance request report is sorted by CSR plan type, school district, and Star Rating. For example, regular plan participants are grouped first, then alphabetically by district. Within each district the schools are listed by star rating, lowest performing first (one star being the lowest performance rating and five being the highest performance rating). Bolded values identify classrooms over the prescribed ratio. Individual variance requests are available for further inquiry.

Eleven school districts have variances in 1 and 2 star schools based on the most recent information published December 15th, 2017. Out of the 148 total 1 and 2 star schools, 140 of those schools have variances with a total of 341 school and grade level variances in grades kindergarten through 6th grade as applicable. Compared to the first quarter of FY18, the number of 1 and 2 star schools with variances increased by one to 140. However, the total number of variances decreased by seven to a total of 341.

Count of Variances by District in 1 and 2 Star Schools

School District	Total Number of Schools (All Star Ratings, Grades K-6)	Total Number of 1 and 2 Star Schools	Number of 1 and 2 Star Schools with Variances	% of 1 and 2 Star schools with Variances	Total Number of Variances in 1 and 2 Star Schools (K Only)	Total Number of Variances in 1 and 2 Star Schools (K-6)
Carson	6	2	2	100%	2	3
Churchill	3	1	1	100%	0	1

DISTRICT LEVEL ANALYSIS OF VARIANCES

There were 137,047.44 students in grades K through 6th grade in the second quarter, which is a slight increase of 1,406.36 students or 1.07%. There were 1,880.17 CSR funded teachers and 4,896.71 non-CSR funded teachers for a total of 6,776.88 teachers, which is 83.32 (1.23% more) teachers more than first quarter. The total aggregate statewide class size ratio in grades K-6 is 20.22, compared to 20.25 in the first quarter.

The district level class size ratios for the second quarter are listed below by grade. Bolded values exceed the prescribed ratio. All but three districts exceed the prescribed ratios in at least one grade; Eureka, Lincoln, and Storey. The grade with the most variances is kindergarten, with 13 of the 17 districts exceeding the prescribed ratio of 16 to 1 students per teacher. The grade with the second most variances is second grade, with 7 out of 17 districts exceeding the prescribed ratio (17 to 1 for the regular plan, and 22 to 1 for those on the alternative plan).

District Level Class Size Ratios

District	K	1 st	2 nd	3 rd	4 th	5 th	6 th

White Pine-A	21.12	18.35	18.80	20.95	17.22	20.32	N/A
Statewide Ratio	21.05	18.92	19.15	21.16	22.76	24.07	23.73

* Esmeralda does not qualify for CSR funds due to their baseline ratios being less than the prescribed ratios. The provided figures are purely informational. Alternative plan participants are identified with an "A", while regular plan participants are identified with an "R".

Concluding Remarks

There were minimal changes in the number of class size ratio variances requested in the second quarter despite an small increase in overall enrollment. Individual variance requests are available for further review upon request. The Department is committed to working with the State Board and school districts to decrease the number of variance requests, particularly in high need schools. I hope this information is useful to you, if you have any questions, please do not hesitate to contact me via email at mhanke@doe.nv.gov or via phone at 775-687-9236.
