**SMALL BUSINESS IMPACT STATEMENT
PURSUANT TO NRS 233B. 0608**

Date: July 21, 2017

RE: Public Hearing, R 108-15, to Adopt Regulations Concerning the Achievement School District (NRS 388B) scheduled for July 31, 2017

I, Steve Canavero, being the duly appointed Superintendent of Public Instruction, do hereby certify that, to the best of my knowledge or belief:

1. The proposed permanent regulations to be added the NAC Chapter 388B concerning the Achievement School District within the Department of Education are not likely to (a) impose a direct or significant economic burden upon a small business, or (b) directly restrict the formation, operation or expansion of a small business. The proposed regulations provide procedures for the operation of the new district.
2. A concerted effort was made to determine any economic burden. The Department of Education has relied legislative testimony during the consideration and passage of Assembly Bill 448 and consultation with national experts.
3. All relevant materials were reviewed and the Department considered its history with implementing similar regulations; the proposed changes are within the scope of the Department's budget and legislatively approved activities and present no new significant cost of enforcement.
4. Comment has not been solicited from small businesses, and no summary of their response is provided, because small businesses are not impacted by this regulation and thus no burden or economic impact can be assessed.

I hereby further certify that, to the best of my knowledge or belief, a concerted effort was made to determine the impact of the regulation on small businesses and that the information contained in this statement was prepared properly and is accurate.

Respectfully submitted

Legislative Counsel's Digest:

Existing law authorizes the conversion of certain underachieving public schools into achievement charter schools and establishes the procedure for the operation of achievement charter schools. (Chapter 388B of NRS) Existing law requires the Department of Education to adopt any regulations necessary or convenient to carry out these provisions. (NRS 388B.060)

Existing law establishes the Achievement School District within the Department for the purpose of sponsoring achievement charter schools. (NRS 388B.100, 388B.220) **Section 6** of this regulation authorizes the Executive Director of the Achievement School District to contract for the services of a consultant or other professional or technical personnel to carry out its duties.

Existing law establishes the criteria which makes a public school eligible for conversion to an achievement charter school, which include unsatisfactory pupil achievement and school

performance at the public school, as determined by the Department pursuant to criteria established by regulation of the Department. (NRS 388B.200) **Section 7** of this regulation prescribes the criteria that the Department will use to make such a determination. **Section 7** also requires the board of trustees of a school district to provide the Executive Director with the name and contact information of the parents or legal guardians of each pupil who is enrolled in a public school that is eligible for conversion to an achievement charter school. **Section 8** of this regulation requires the Department and the board of trustees of each school district to publish annually a list of public schools that are eligible for conversion to an achievement charter school. **Section 9** of this regulation authorizes any parent or legal guardian to circulate and submit a petition containing recommendations for: (1) making certain public schools eligible for conversion to achievement charter schools; (2) converting a public school to an achievement charter school; (3) the Department and the board of trustees of a school district to enter into a performance compact concerning a public school that is underachieving; and (4) the Executive Director to terminate the contract to operate an achievement charter school that is underachieving. **Section 10** of this regulation prescribes the requirements for gathering signatures and circulating such a petition. **Section 11** of this regulation prescribes actions that the Executive Director and State Board of Education must take to verify and approve a petition. **Section 12** of this regulation prescribes the effects of such a petition if found to be valid.

Section 13 of this regulation requires the Department to offer to negotiate a performance compact with the board of trustees of a school district to address certain underperforming public schools within the school district that are eligible for conversion to an achievement charter school but are not selected for such conversion. A public school that is subject to a performance compact will not be selected for conversion to an achievement charter school during the term of the performance compact. The Department may terminate a performance compact if, as the result of an annual review, the Department determines that the public school has not made adequate progress toward the goals prescribed in the performance compact.

Existing law requires the Executive Director to solicit and consider input from parents of pupils enrolled in a public school and other members of the community in which the public school is located before: (1) designating the public school for conversion to an achievement charter school; and (2) selecting a charter management organization, educational management organization or other person to operate the achievement charter school. (NRS 388B.200, 388B.210) **Section 14** of this regulation: (1) also requires the Executive Director to solicit such input from the legal guardians of pupils; and (2) prescribes the procedure that the Executive Director must use to solicit such input from the parents and guardians of pupils.

Section 15 of this regulation prescribes the dates by which the Executive Director must annually: (1) submit the list of public schools for continued eligibility for conversion to achievement charter schools to the State Board for approval; and (2) select public schools for conversion to achievement charter schools. **Section 15** also requires the State Board to consider any relevant information, including historical achievement data, when considering which public schools to approve for final consideration for conversion by the Executive Director.

Existing law requires the Department to adopt regulations that prescribe the process by which a charter management organization, educational management organization or other person may apply to operate an achievement charter school. (NRS 388B.210) **Section 16** of this regulation establishes the requirements to apply for approval to operate an achievement charter school and the procedure by which the Executive Director will review and approve such applications. **Section 17** of this regulation prescribes the process by which: (1) an operator that has been approved may apply to the Department to operate a public school selected for conversion to an achievement charter school; (2) the Executive Director will select an applicant to operate the achievement charter school; and (3) an operator of an achievement charter school may apply to the Executive Director to expand the achievement charter school.

Existing regulations impose certain requirements concerning the operation and financing of charter schools. (NAC 386.205-386.223, 386.329, 386.341, 386.3415, 386.342, 386.357, 386.365, 386.400, 386.450-386.472) **Section 18** of this regulation makes these requirements also applicable to achievement charter schools. **Section 19** of this regulation prescribes certain requirements concerning the membership of the governing body of an achievement charter school, and **sections 20 and 21** of this regulation prescribe certain duties of the governing body.

Section 22 of this regulation: (1) authorizes the parent or guardian of any child who resides within this State to apply for enrollment at an achievement charter school; (2) prohibits the governing body of an achievement charter school from limiting the enrollment of pupils in the school except in certain circumstances; and (3) establishes the order of priority in which applicants must be enrolled in the achievement charter school.

Existing law requires the governing body of a charter school to authorize a child enrolled in a public school of a school district or a private school, a homeschooled child or an opt-in child to participate in a class that is not otherwise available to the child or an extracurricular activity at the charter school if space is available and certain other requirements are met. Existing law also provides that the charter school is not required to provide transportation for any such child to the class or activity and authorizes the governing body to revoke such authorization if the governing body determines that the child has failed to comply with applicable statutes, rules or regulations. (NRS 388A.471) **Section 23** of this regulation similarly requires the governing body of an achievement charter school to allow such a child to participate in a class or an extracurricular activity at the achievement charter school under the same conditions.

Existing law provides that an achievement charter school must continue to operate in the same building in which the school operated before being converted to an achievement charter school and requires the governing body of the achievement charter school to pay costs related to maintenance and operation of the building. Existing law requires the board of trustees of the school district in which the school is located to pay all capital expenses. (NRS 388B.230) **Section 24** of this regulation provides that: (1) the board of trustees of the school district in which an achievement charter school is located continues to own the building in which the school operates; (2) the governing body of an achievement charter school is required to enter into

an agreement with the board of trustees of the school district in which the school is located concerning maintenance of the building; (3) any repair or construction that is necessary for the continued operation of an achievement charter school that has a cost exceeding \$15,000 shall be deemed to be a capital expense; and (4) if an achievement charter school is converted to a public school under the governance of the board of trustees of a school district or a standard charter school, any fixtures, improvements or other tangible assets added to the building in which the achievement charter school operates by the governing body must remain with the building after the school is converted.

Existing law requires the board of trustees of a school district, upon the request of the Executive Director, to perform certain services relating to the operation of an achievement charter school. (NRS 388B.260) **Section 24** authorizes the Executive Director or the operator of an achievement charter school to consult with the board of trustees of the school district in which the achievement charter school is located concerning available services and any fees that must be paid for such services.

Section 25 of this regulation requires the contract between the Executive Director and the operator of an achievement charter school to include clear and quantifiable statistical goals for the achievement charter school. **Section 26** of this regulation requires the principal of an achievement charter school to: (1) annually report to the Executive Director certain information concerning the performance and operation of the achievement charter school; and (2) conduct at least two annual meetings with parents and legal guardians of pupils. **Section 26** also requires the governing body of an achievement school to procure an annual audit of the school. **Section 28** of this regulation requires the Executive Director to conduct an annual performance review of an achievement charter school. If the Executive Director concludes, as a result of the performance review, that the achievement charter school has not met the performance goals set forth in the contract to operate the achievement charter school, **section 27** of this regulation: (1) authorizes the Executive Director to renegotiate the contract with the operator or terminate the contract and enter into another contract to operate the achievement charter school in certain circumstances; and (2) requires the Executive Director to notify the parents and legal guardians of pupils that the school has not met those goals and that they may submit a petition recommending the termination of the contract to operate the achievement charter school.

Existing law authorizes the reconstitution of the governing body of a charter school, the revocation of a written charter or the termination of a charter contract if the sponsor of a charter school determines that: (1) the charter school, its officers or its employees have failed to comply with generally accepted standards of fiscal management or violated the terms of the written charter, charter contract or a statute or regulation concerning charter schools; (2) the charter school is financially impaired such that it cannot continue to operate; (3) reconstitution, revocation or termination is necessary to protect the health and safety of pupils or school personnel or to prevent damage to or loss of property of the school district or the community in which the charter school is located; or (4) the charter school has persistently underperformed.

(NRS 388A.330) **Section 28** of this regulation authorizes the Executive Director to terminate a contract to operate an achievement charter school for those reasons.

Section 29 of this regulation provides for notification of the operator of an achievement charter school whose contract is terminated and the parents and legal guardians of pupils enrolled in such an achievement charter school. **Section 29** also authorizes the operator of an achievement charter school whose contract is terminated to appeal the decision to the Department and provides for the selection of a new operator of such an achievement charter school if the contract is terminated. **Section 30** of this regulation imposes certain obligations on the governing body of an achievement charter school in the event that the governing body or operator decides to cease operating the achievement charter school or the contract to operate the achievement charter school is terminated.

Existing law requires the board of trustees of a school district to grant a leave of absence to a licensed employee who wishes to accept or continue employment with an achievement charter school (NRS 388B.400) **Section 31** of this regulation prohibits a board of trustees that grants such a leave of absence from terminating the employee for the purpose of reducing its workforce due to unforeseen economic circumstances.
