

DISTANCE EDUCATION PROGRAMS

General Program Requirements and Information

The following selected information has been taken from Nevada Revised Statutes (NRS) to assist you in planning for a distance education program. It is strongly suggested that if you have any questions regarding distance education programs in Nevada that you refer to NRS 388.820 through 388.874 for specific wording of the distance education program requirements. If you do not have a hard copy of the statutes, they can be located at the Nevada Legislative Website: www.leg.state.nv.us/law1.cfm.

 - (a) For a shorter school day or a longer school day than that regularly provided for in the school district or charter school, as applicable; and
 - (b) During any part of the calendar year.
2. If a program of distance education is provided for pupils on a full-time basis, the program must include at least as many hours or minutes of instruction as would be provided under a program consisting of 180 days. Distance Education courses approved by the Department are considered to meet this criteria.
3. The board of trustees of a school district or the governing body of a charter school that provides a program of distance education shall ensure that, for each course offered through the program, a teacher:
 - (a) Provides the work assignments to each pupil enrolled in the course that are necessary for the pupil to complete the course; and
 - (b) Meets or otherwise communicates with the pupil at least once each week during the course to discuss the pupil's progress.
4. If a course offered through a program of distance education is a core academic subject, the teacher who fulfills the requirements must be a licensed teacher.

Written Agreement Requirements – School Districts

1. Before a pupil may enroll full time or part time in a program of distance education that is provided by a school district other than the school district in which the pupil resides, the pupil must obtain the written permission of the board of trustees of the school district in which the pupil resides. Before a pupil who is enrolled in a public school of a school district may enroll part time in a program of distance education that is provided by a charter school, the pupil must obtain the written permission of the board of trustees of the school district in which the pupil resides. A pupil who enrolls full time in a program of distance education that is provided by a charter school is not required to obtain the approval of the board of trustees of the school district in which the pupil resides.
2. If the board of trustees of a school district grants permission to allow the enrollment of a student into a distance education program offered by an entity other than their own school district, the board of trustees shall enter into a written agreement with the board of trustees or governing body, as applicable, that provides the program of distance education. A separate agreement must be prepared for each year that a pupil enrolls in a program of distance education.

Written Agreement Requirements – Charter Schools

If the governing body of a charter school grants permission to allow the enrollment of a student into a distance education program offered by an entity other than their own charter school, the governing body shall enter into a written agreement with the board of trustees or governing body, as applicable, that provides the program of distance education. A separate agreement must be prepared for each year that a pupil enrolls in a program of distance education.
4. If the governing body of a charter school provides a program of distance education, the governing body shall:
 - (a) For each pupil who is enrolled in the program, provide written notice to the board of trustees of the school district in which the pupil resides of the type of educational services that will be provided to the pupil through the program. The written notice must be provided to the board of trustees before the pupil receives educational services through the program of distance education.
