GUIDANCE MEMORANDUM #17-03

TO: Governing Board of Mineral County School District

COPY: Walt Hackford
Superintendent, Mineral County School District

FROM: Steve Canavero, Ph.D.
Superintendent of Public Instruction

SUBJECT: Student Performance Compacts

On October 14, 2016 the Nevada Department of Education (NDE) released a list of the State's lowest performing schools. For the 2015-16 school year, schools were identified because they met at least one of two criteria:

- 1) Elementary or Middle School in the bottom 5% in pupil achievement and school performance or;
- 2) High School with a graduation rate of less than 60%.

This list, previously known as the Underperforming Schools list, now called the *Rising Star Schools List*, fulfills the State Board's annual responsibility to release a report on Nevada's current state of student achievement.

Attached is a list of Mineral County School District schools that have been identified as one of the State's lowest performing schools.

In accordance with NRS 385A.650, it is the Nevada Department of Education's responsibility to work with the District to ensure that an appropriate school improvement plan is in place to rapidly improve student performance. To that end, the Department may elect to pursue either the *Nevada Achievement School District* or the additional State-led intervention protocol, *Turnaround Designation* for District-run, non-charter schools.

Additionally, NDE and the District could elect to work in partnership and agree to a Student Performance Compact that includes the selection of a different intervention option. A Student Performance Compact establishes targets for improving student achievement over a three year period and includes the creation of a school performance plan that identifies a non-profit partnership, local government partnership, charter school partnership, or some other strategy that would demonstrate a high likelihood of rapidly improving student achievement.

Please accept this letter as a formal inquiry into your actions and plans for each of the District's *Rising Star* schools and which schools will elect to enter into a Student Performance Compact.

As a reminder, the Student Performance Compact is aligned to moving a *Rising Star* school to three stars in three years. Those schools that enter into a Student Performance Compact and meet the student achievement targets articulated within the Compact are not put forward for consideration into the Achievement School District in the following year. Attached you will find a blank Student Performance Compact for your review with a menu of available interventions.

Your responses should include which schools will enter a Student Performance Compact and what strategies and partnerships the schools will employ to significantly improve student performance.

Send your response by Wednesday, March 1, 2017 to Brett Barley, Deputy Superintendent for Student Achievement (bbarley@doe.nv.gov) under the direction of the Superintendent of Public Instruction.

Thank you in advance for your attention to and cooperation with this matter.

Sincerely,

A handwritten signature in blue ink that reads "Steve Canavero". The signature is fluid and cursive, with the first name "Steve" written in a larger, more prominent script than the last name "Canavero".
